

F-series code meaning

Series

F-

① Adhesive type

- 3 : General purpose, halogen contained
- 5 : Halogen contained, anti-migration
- 7 : General purpose, halogen free

② Film type

- 0 : General PI
- 1 : Low elasticity PI
- 2 : High dimension stability PI

V

③ Copper foil structure

- C1 : Single-sided
- C2 : Double-sided

⑦ Copper foil thickness

- 1 : Single-sided
- 2 : Double-sided

⑦ Copper foil thickness

Unit : oz

④ Film thickness

Unit : μm

⑤ Copper foil type

- C : Electro-deposited copper foil
- RC : Rolled copper foil

(⑧ Copper foil type)

Electro-deposited copper foil

- Nothing : Standard ED
- SH : Special ED
- SS : Low-profile

Rolled copper foil

- H : Standard RA
- HY : High flexibility
